

Testimonials

I would just like to write and tell you how much I love your product, it is absolutely fantastic. I am an IT professional travelling interstate regularly and the drag bag fits and protects my 17" laptop and documents perfectly. I purchased the Altitude model. My Dragbag is constantly receiving comments and compliments from people I come into contact with. I have even had admiring comments from airline staff- people who see bags every day! Everyone loves it for its unique ergonomic pull handle, large smooth rolling wheels and the amount of stuff that can fit inside! Your attention to detail is very apparent from the design and location of pockets to the quality of construction - this bag caters to all my needs. From travelling to the snow fields in Japan to rolling around Sydney, it handles any terrain with ease. Put simply, this is the best bag I have ever had the pleasure of owning!

Justin Ammerlaan, Hobart

We have just returned from a twelve day holiday in Japan. We planned our trip using the impressive Railway network of the Shinkansen line, known as the 'Bullet Trains' , and what a fast, easy way to travel, especially if you use 'Drag Bag' as your luggage carrier! In crowded Japan you have to move quickly on and off these trains, through the stations and very often walking to hotels. The 'Drag Bag' certainly allowed us to do this easily and while in transit, store it in the overhead rack or between the seats. The bag is so compact, quick to pack and unpack with its numerous pockets and compartments which have easy access. The large wheels move easily and efficiently and do not tip over. The amount of things we carried surprised everyone! There is an extra joy in travelling if your luggage is with you at all times and can be controlled with one hand. Never again the torment of large suitcases for us, especially when you realise that too much luggage has always been the "case" .

Bob and Pat Egerton, Australia

I'm the manager of the Australian Swimming team. I have purchased your product to take to the World Championships in Barcelona.

I LOVE THE DRAG BAG!

Greg Hodge who is the Head of Delegation already has purchased one, he was the one who suggested I purchase the bag as I have a bad back and as manager have so much to carry. My back was great this trip and I have to thank you and the bag for this. The amount of paper work that I require and have to carry with me is so heavy and this time I could just drag it with me.

Karen Stephenson

There were actually 4 of us on the swim team with drag bags and they were much admired by other competing nations-hopefully we have raised some awareness for you internationally. Jeni Saunders (member of Australian Swim team) This is a great bag! So versatile for travel and every day work purposes.

Margaret Plag

ASI Sport Science Coordinator

NSWIS Swimming Physiologist

It's wonderful. I had a pinched nerve in my neck which wasn't healing up properly because I was carrying a heavy bag around all day. My neck is now heaps better thanks to the drag bag.

Emily Klopp

Great Product! Great to buy such a well designed and made product.

Dominic Redfern, Lecturer
